PNW Mushrooms 101 with Salish Sea Mushrooms

EVERETT, WA – 'Tis the season for mushrooms! Looking for a reason to get outdoors and start finding some fabulous fungi? Join Jeremy Collison, founder of [Salish Sea Mushrooms](#), and [learn mushroom dos and don'ts](#) on Tuesday, Oct. 18, at 6 p.m. at the Evergreen Branch Library, 9512 Evergreen Way.

This program is perfect for anyone curious about mushrooms. No mycology knowledge or previous foraging experience is necessary. Learn about the basics of mushrooming in the Pacific Northwest, explore types of native mushrooms, review basic safety concerns, and find out how to identify mushrooms using the [iNaturalist](#) website and app.

Collison founded Salish Sea Mushrooms to share his love of mushrooms with the PNW community. From the time that morels begin to appear in the spring until the waning days of mushroom season in December, he can be found outside in search of interesting mushrooms. Collison grows and studies mushrooms in his home lab, hosts weekly community meetings through the [Pacific Northwest Mushroom Meetup](#), offers guided foraging tours and volunteers with his local mushroom club. He is a knowledgeable and passionate guide to the fascinating world of mushrooms all around us.

This program is free and open to the public. Call 425-257-8000 or visit www.epls.org/events for more information about this or other library programs.

The Everett Public Library was founded in 1894 by the Everett Woman's Book Club. The historic Main Library was built in 1934 by architect Carl Gould, and the Evergreen Branch opened in 1985. The library's two branches serve the residents of the City of Everett and nearby locales, circulating over 400,000 items per year and hosting hundreds of programs for children and adults. We connect the community to resources and services that inform, educate, and entertain. For more information about the Everett Public Library, visit www.epls.org.
